EXPERIENCE

Travix, Amsterdam - *Front End Developer*

SEPTEMBER 2017 - CURRENT

Travix is one of the leading global online travel agencies operating five brands in 35 countries, employing more than 500 people with over 45 different nationalities worldwide.

- Frontend Team Leader responsible for flights results and seat maps.
- Responsible for the migration of our current E2E implementation to a new one using Webdriver.io testing more than 40 affiliates.

Working with: HTML, CSS (CSS Modules), Javascript (ES6), Babel, Gulp, Webpack, React, Docker, Mocha, Istanbul, Webdriver.io, ESLint, Express

OLX, Rio de Janeiro - *Front End Developer*

OCTOBER 2016 - AUGUST 2017

Responsible for the front-end of the real estate product of OLX, Stória Imóveis.

We developed the product from scratch. It's a Progressive Web App built with React and Nodejs, with a lot of fun stuff, like Server Side Rendering, Redux (and Redux Saga), offline support and Google Maps deep integration.

I'm also responsible for all the properties search experience and for hiring most of our developers.

Working with: Javascript (ES6), NodeJs, React, CSS3, Webpack, CI, Elastic Search, AWS, Google API.

VTEX, Rio de Janeiro - *Front End Developer*

NOVEMBER 2012 - OCTOBER 2016

VTEX is the biggest E-commerce Platform on the South America and one of the top AWS cases in Brazil. They handle thousands of sales everyday with a great performance.

I worked at VTEX focused on developing applications that allows the client to have full control of their shop.

I was the front end lead developer of the authentication experience, payment gateway and notification center.

I also improved the hiring process of VTEX and I was part of the team responsible for the company's technology events.

Worked with: Javascript (ES6), NodeJs, React, AngularJs, CSS3, SASS/Less, HTML5, CI.

Peixe Urbano, Rio de Janeiro - *Front End Developer*

FEBRUARY 2012 - OCTOBER 2012

Front End development for the local commerce Startup Peixe Urbano and other products (Delivery Peixe Urbano).

Focus on usability, semantic and performative code.

Worked with: Javascript, CSS3, SASS, HTML5, jQuery.
